HIGH COMMAND FIGHT DISCLOSED

Great War Chief Mingles History's Tense Drama With Human Comedy in Gripping Work.

(Copyright, 1930, for The Constitution by the North American Newspaper Alliance.) NEW YORK, Oct. 19.—General John J. Pershing has completed his story of America's participation in the war, a revealing 260,000-word narrative as vigorous and direct as his handling of his country's fighting forces

For one and a half years the great soldier who was commander in chief of America's lusty army has been working on his memoirs, which begin with his selection to lead the army overseas and end with the armistice.

The story is a high climax to all the preceding narratives by notable figures in the war. And in it General Pershing reveals for the first time, with straightforward candor, the tremendous difficulties, entanglements and embarrassments he met and over-

armed forces, how they blotted out the German drive on Paris, the way in which they turned the tide at Chateau Thierry, how the drive in the Meuse Argonne cut the German lines and forced the armistice.

Only in The Constitution moirs will begin in January, and the story will appear in the papers of the North American Newspaper Alliance, of which The Constitution is the only member in Atlanta. When newspaper publication, which will be in daily installments, is completed, the memoirs will be issued in book form by the Frederick A. Stokes Company, New

the American army was to be that in fact, and not a mere supplement to the French and British forces.

General Pershing describes the unrelenting pressure brought by Foch, Clemenceau, Lloyd George, the British commander in chief, Field Marshal Haig, and others, and his own unswerving and challenging determination to maintain the American army as a separate fighting entity, though in close, efficient and friendly conversion with the other forces.

as a separate lighting entity, though in close, efficient and friendly cooperation with the other forces.

The general tells of a dramatic meeting of the supreme war council, when, through hours of argument, at times bitter, he insisted that there was to be "no parceling out of our men." And finally, he recounts, Lord Milner, of the British delegation, stage-whispered to Lloyd George: "You can't budge him an inch."

General Pershing speaks frankly of a lack of co-operation with the American command in the early days of American participation. And he does not hesitate to disclose defects in the war organization of his own country, the difficulties in obtaining sup-

war. And he refers unhappily to his country's "false notion of neutrality," observing that these, prolonged the war and cost many lives needlessly.

The general gives an interesting glimpse into Buckingham palace, where he was received by King George when he was on his way to France, and he cites a blazing remark made by the king as an indication of his hatred of the kaiser.

The heaviest snow—four feet—was reported at Angola, N. J. More than 200 automobiles were stalled within a mile of the village and the occupants of the machines were cared for by residents. About 1.000 motorists also were stalled between Wanakah and Dunkirk.

E. Tylor, of Irwin county, in delivering the prisoner, said that Marsh had confessed and that he named Charles Swinney, negro, as his accomplice. A shotgun was used, the negro said.

Chancellor To Push Financial Reform Program Through Reichstag.

BERIAN, Oct. 19.—(P)—Sustained by a reichstag majority that astounded political observers, the coalition government of Chanceller Heinrich Bruening today prepared to push through the reichstag its concrete program of financial reforms.

As the reichstag already has given a vote of confidence to the ministry, a safe majority for the measures is forecast in the reichsrat, which is the state council.

The margin of 82 votes given to Chancellor Bruening has, in the opinion of many observers, put a new complexion on German politics, which are ever full of surprises.

When the elections of September 14 produced an unprecedented increase of extremism in parliament, giving the fascists on the right 107 instead of 12 seats and the communists on the left 77 instead of 54, the future appeared to be hopeless for the cabinet.

Nobody then dreamed that at the crucial moment the chancellor's foreign policy and his drastic financial program would ever be supported by a majority as high as 82.

As the day drew nearer for the new reichstag to assemble, his position seemed to become even more precarious. The support of the social democrats, which made possible last night's victory, seemed to have been insurmountably blocked by a strike

Moreover, the center parties that constituted the strength of the coali-tion were almost split apart.

Only the virtual command of Pres-ident Non Hindenburg, the aged sol-dier-statesman, prevented the eco-nomic party from quitting the cabinet cold. The people's party seemed de-sirous of inviting the fascists into the government. The states' party, form-ed of the old democratic party and other elements, broke in two after an internal row.

ATTACK ON GOVERNOR

TALLAHASSEE, Fla., Oct. 19 .-(A)-Charges brought by certain newspapers of the state against Governor Doyle E. Carlton will be investigated by a circuit court grand jury which opens its sessions here tomorrow.

Grand jury investigation was requested by Governor Carlton October 6 in a letter addressed to Judges E. C. Love and J. B. Johnson of the second judicial circuit. In the letter the governor said: "Two or three newspapers of the state have brought against state officials, primarily the governor, insinuations and charges of bribery and illicit connection with the Zuta and Capone element."

Declaring these charges cast a reflection not only on officials but on the state as a whole, the governor requested the grand jury to be called to investigate. Doyle E. Carlton will be investigated. FIREMEN ON JUMP

AS WINTER NEARS

Atlanta firemen during a 48-hour period ending Sunday midnight were reminded of the advent of colder weather, 25 alarms being received at central station. Three of the summonses, however were false, and in only two instances was material damage done, it was said.

The drop in the temperatures, which set in Friday, continued over the week-end, with an average range of from 44 to 58 degrees. This recorded a mean thermometer of 51 degrees which is 11 degrees below what FIREMEN FIND MAN BOUND. Now that the cabinet has been safely sustained in the brief but turbulent sessions of the reichstag, the government's next step in the realization of ts program is to present its bills to

the reichsrat.

One of the effects of the disorder and tumult in the reichstag last week has been the loss for the fascists of much of the prestige with which their immensely strengthened delegation entered parliament.

One of the reasons is that it was they who did most of the talking in the sessions despite the fact that during the campaign they had clamored loudest for actions instead of words. Another was that they introduced a number of bills that were obviously not feasible, proposing the seizure of the property of all profiteers, the nationalization of banks and the limiting of interest to 5 per cent.

Kogut wrenched a piece of tub-ing from his cell bed, filled it with water and placed a lighted kero-sene lamp under it.

After plugging the end of the tubing, Kogut lay down to await death. In a terrific explosion he suffered a mangled face which physicians said probably would cause his death.

The law has emancipated women, but it hasn't changed human nature. Girls still depend upon men for their pleasure.

A young woman might leave home alone, as many a young man does, and spend the evening in quest of pleasure without endangering her life or horrifying the neighbors, but she has no liking for lone adventure. She wants a "date."

An evening that threatens to be dull is made by the promise of male company. With a male along she feels safer, less conspicuous and better polsed. Also she has the assurance that she need not pay cash for her entertainment.

That the gelatine village is sophisticated enough to make fun of itself is difficult to believe. That it will make many pictures of Hollywood is easy to understand. When an air picture is made, others follow suit. When war is uppermost in big producer's plans little producers are warminded. And when Hollywood steps into its own limelight, the grotesque shadow of itself will be thrown upon the screen of the world.

WELCOME THE BABY AT HOME. I estimate—we really can't take time to measure and weigh these things out these days-I estimate that in each bushel of letters asking advice about health matters there are half a peck seeking birth control suggestions. This is not . 'y half bad;

two or three years ago it was a peck. Now that more and better people are debating whether to have a baby, naturally more people are wondering where to have the baby. I have already said what I could to encourage people to welcome the baby at home. My efforts to popularize a \$50 fee for the doctor's attendance seemed to offend the dignity of some snobs. Flight Lieutenant Hill greeted Kingsford-Smith as he landed, and told him that the wing of his machine had caught on a wire fence as he attemped to rise, not far away. The machine turned over, damaging its undercarriage, breaking the propeller, and smashing both wings. Record Flight.

The Australian ace, flying in his airplane "Southern Cross, Jr," sped away above the wild desert country of the Northern Territory of south Australia on what may be the last of his great long distance flights. Hill, who was not hurt in the crash of his plane, refused the offer, and insisted upon Kingsford-Smith continuing, taking with him the small rubber, collapsible boat which he had brought from England particularly for the trip across the Timor sea.

Kingsford-Smith, while crossing the Timor sea, one of the most dangerous stretches of water in the world so far as flights are concerned, had the added confidence of possession of his friendly rival's life-saving apparatus.

Kingsford-Smith paid high tribute No one gave heartier tribute Kingsford-Smith than Captain Errol Boyd, Canadian hero of most recent trans-Atlantic flight. Kingsford-Smith paid high tribute to Hill's pluck and endurance and expressed deepest sympathy with him in his mishap. Hill left England four days before Kingsford-Smith, who was able to catch up with him in the last stages of the flight and develop a race for first honors in reaching Australia

"It was a pitiful sight," Kingsford Smith said, "to see Licutenant Hill's machine smashed up and to see a gallant pilot lose all he had fought for so pluckily and had endured so much to attain.

LONDON, Oct. 19.—(49)—England was girred to the depths today by news of the safe arrival in Australia after a record-breaking flight of Wing Commander Charles Kingsford-Smith, the empire's Lindbergh.

The mother country, which has been following with the closest attention the details of his speedy flight from Heston airdrome to Port Darwin, has fully appreciated the romance of the fact that he was racing to meet his future bride.

On October 4, he said, a mob attacked street cars, operated by an American company in Bahia, and smashed their windows, despite Brazilian flags which were flown from the cars. The mob marched then to the company's offices, wrecked the furniture, and turned out the American can staff.

WOMEN TO SEEK CITY GOLF TITLE STARTING TODAY

Tournament Will Start at East Lake This Morning.

Qualifying rounds for play in the annual woman's city golf championship tournament will be played this morning over the old East Lake Country Club course. It will be the last major golf tournament of the year for Atlanta's women golfers and preparations are being made for a recordentry.

Qualifying will be over the 18-hole route and match play is scheduled to start Tuesday morning with the players grouped into flights of 16 each. There will be as many flights as necessary to take care of every entry.

The defeated eight players in the championship flight will form the consolation flight.

The association has experienced one of its most successful seasons and the surplus from other tournaments will go to purchase trophies and prizes for winners and runners-up in each flight.

Officials of East Lake Club stated Sunday night that the greens are in better condition than at any time this year. The heavy rains of week before last and the hot sun last week has caused the greens to be much faster than before and careful cutting has made them almost perfect.

TITLIST ENTERED. Miss Margaret Maddox, former women's southern champion, is the present titleholder, and will be among the early qualifiers today. She has been playing regularly during the past few weeks in an effort to retain her city title.

Mrs. W. D. Doak, who recently defeated Miss Maddox for the women's state title over the Ra-dium Springs "course" in Albany, Ga., heads the list of favorites.

Other strong entries for the tournament will include Mrs. A. Guy Smith, Mrs. Ashby Taylor, Mrs. Roy Burns, Mrs. Albert Jones, Mrs. T. T. Williams, Mrs. C. E. Williamson, Mrs. Helen Dargan Lowndes, Miss Mary Warren and Mrs. C. C. Clower.

Rosenbloom Stakes Title Against Bain in Lone Big Bout.

NEW YORK, Oct. 19 .- (AP) -- Maxie Rosenbloom, veteran champion of the light-heavyweights, offers the princi-pal relief from the nation-wide boxing drouth this week by defending his title in Madison Square Garden Wednesday night against Abie Bain, young Newark, N. Look who's leading-nobody but Alabama-the Crimson ride in person—after three years of taking them on the chin here and there in the conference.

Alabama strung two conference games on the peg by beating Mississippi and Sewanee. Then they licked Ten-

nessee-by unanimous consent, it seems. Popular opinion, if not sentiment, gave that game to Alabama in the middle of September. Injuries to McEver, Hug and Brandt proved to be real injuries; that clinched it. The swirling Crimson linemen and the strong backs went through the formality of confirming it.

GIVE 'EM CREDIT.

Old Tennessee was good while she lasted. For 33 games in four years the Orange ripped and tore about the Cotton Belt. Folks called time on Tennessee last year but a tie with Kentucky in the snow at Lexington was the worst they got. Give them credit for setting a pace and keeping it.

WHAT A DETAIL!

And now: Alabama has to do nothing but beat Vanderbilt, Kentucky and Florida on the next three Saturdays.

No other conference eleven has such a murderous detail. And by that same sign Vanderbilt, Kentucky and Florida have rousing afternoons in prospect when they line up for the kick-off with the Tide.

Someone said in September that Alabama might not win the conference championship but certainly would decide it. That looks like a fair statement of the situation now.

GEORGIA IMPROVED OVER YALE EFFORT.

Georgia played a football game against North Carolina that was most remarkable in view of what has gone before. A week ago Georgia played with great precision and su-

preme spirit to beat a very strong Yale eleven.

Yet Yale was not well prepared in advance to meet Georgia's formations and their defense was stupidly set and stubbornly maintained in spite of obvious weaknesses as the game went on.

North Carolina was better prepared through the excellent scouting of Rex Enright and the shrewd calculations of Chuck Collins to meet Georgia's attack than Yale was. So Georgia was compelled to wear down resistance

in the forward line before their full broadside of power plays could be brought to bear.

Georgia seemed to play a better game mentally and me-chanically against North Carolina than they did a week ago at Yale. That is just the impression made on one observer, Georgia must be rated now even better than at the close of the Yale game. They have everything—and have shown only a part of their attacking power to date.

CHECK AND DOUBLE CHECK

Bobby Rose and Jimmy Hammerick must be THE Georgia kles on the strength of their fine work against the Tarheels.

Georgia's tackles were subjects over which men shook their heads sadly last month. It was facetiously suggested that Georgia should undertake to trade two or three halfbacks for a couple of fair-to-middling tackles. On the face of the Carolina game deals, if any, safely may dropped. The tackles have arrived. By November they will

GUARDS DEFEAT FORT POLOISTS

Guardsmen Earn Fourth Straight Victory, 8-7, in Spurt.

The Governor's Horse Guard polo team won its fourth straight victory over the Fort McPherson team with a brilliant last-chukker rally Sunday afternoon at Fort McPherson. The final score was 8 to 7.

P. D. Christian and Graham, a substitute in the last period for Love, were the stars in the rally, although the playing of Lieutenant Moran was a feature for the winners throughout the game. His defensive play was particularly good.

Starting the last chukker with the score six each, the Horse Guards took the ball from a throw in and slashed up the field, Graham sending a short one through for a one-goal margin. Fort McPherson attempted a drive but it was stopped and Christian, with a long drive, placed the Horse Guards two goals to the good.

Cards To Meet A's In Spring Series

FORT MYERS, Fla., Oct. 19.—(P)
The Athletics and the Cardinals will meet on the baseball diamond again next spring but the world's baseball title will not be at stake.

Announcement was made here today that the world champions of Philadelphia and the St. Louis winners of the National league pennant will play five games in various Florida cities during spring training.

The series was arranged by R. Q. Richards, Fort Myers representative of the Athletics.

The first two games will be played at Miami March 7 and 8, the next pair will be staged at Fort Myers march 9 to 10, while the final clash will be held at the Bradenton training camp of the Cardinals Sunday, March 15.

Ladoumegue Takes Second World Mark

PARIS, Oct. 19.—(P)—Jule Ladounegue, stellar French middle distance runner, today bettered the world's record for the one kilometer run, covering the distance in two minutes, 23 3-5 seconds. The old record for 1,000 meters was 2.25 4-5, held by Dr. Otto Peltzer of Germany. This was the second world's record broken by Ladounegue in two weeks and both were lifted by the Frenchman from Peltzer.

On October 5 Ladounegue ran 1,500 meters in 3:49 1-5 to break Peltzer's mark of 3:51.

The Tarheels and Volunteers have struck out.

Tennessee, after three years of almost unprecedented good fortune so far as injuries were concerned, fell before adversity and the Crimson Tide from Alabama. The Tarheels doped to lose, went down with a gurgling cry over Athens way with the Bulldogs nushing them down.

The Vols from Knoxville failed to make up the deficiency caused by injuries. For three years the Vols were able to offer every starter in every hard game. The commen lot of all teams, injuries, was theirs this fall and they dropped the first hard game. Alabama winning, 18 to 6, and using only straight football to accomplish it.

North Carolina uses Notre Dame formations but "sets" the men rather than shifting them. The games left Alabama out in front of the conference parade with three victories over conference brethren, Mississippi, Sewance and Terinessee having drowned in the Tide.

TECH STAYS IN.

Georgia Tech remained in the conference race by beating Auburn's new Tiger eleven, 14 to 12. Tech played carelessly in the first half and saw Auburn make two touchdowns on three plays, two from scrimmage and one run of 70 yards after an Auburn end had snatched the ball from the hands of a Tech back.

The Jackets' green backfield, with veterans Earl Dunlap and Doug Graydon out, were befundled in the first half by the delayed plays of the Auburn eleven.

Florida humbled Stagg's Maroons at Chicago, winning, 19 to 0. It was Florida's first victory outside the south in 14 years. The Florida team is still unscored on. Red Bethea, the red-headed halfback, who starred in the New Year's Day charity game here last year, was the boy who led the 'Gators to victory.

Outside the conference Furman surprised by holding Davis-Elkina to a 7-7 tie and Oglethorpe added its second intersectional victory in two weeks by beating the University of Dayton, 8 to 0.

Kentucky was surprised at the start of the fourth quarter to find that Washington and Lee had also made 14 points. Kentucky turned "Shipwreck" Kelly loose and be ran up the score to 33 to 14 for the Wildcats.

PREP ELEVENS SET FOR WEEK OF HARD WORK

Smithy-Black Bear Game Features Good Grid Card.

By Roy White.

After being thrown for reverses during the turbulent week-end of October 11, Atlanta's prep football teams took up some of the loose ends Friday and Saturday with weaker opponents and are ready for another week of strenuous work. Tech High will meet Tuscaloosa High, from Alabama, Friday afternoon in the most im-portant battle of the week.

Boys' High was slated to play Central High in Knoxville but the game has been moved up to the night of November 6. University school also has an open date on its schedule.

There will be plenty of action in the Tech High-Tuscaloosa game Fri day. The visitors have a string of victories dating back through three seasons and have started well again this year. They have plenty of power in the backfield and a forward wall that is hard to get by. It has all the sppearance of a college line. SMITHIES IMPROVE.

Tech High, with a powerful line and a week backfield, started slow with a 0-to-0 tie with G. M. A. In the next game they easily defeated Ensley High from Birmingham and then ian into a snag in the strong Madison Aggie eleven. The Smithles came back strong to beat a weak Uni-versity eleven last week-end.

G. M. A. will go into action against Fulton in its second game with local clevers. The Cadets are Atlanta's only hope for a chance in the northern division of the G. I. A. A. since beth Tech High and Boys' High have been disfasted. Theirs is the most been defeated. ROUTS HAVE BEEN ENDED.

Auburn took a terrific physical pounding in the Tech game. Their guards were wrecked; their backs were cracked up. They will be in poor physical shape for Georgia Saturday at Columbus.

Yet Georgia has had two hard games in a row and will not be so vigorous.

It appears then that the major 1930 objective of Coach Wynne—to put an end to the 50 to 0 routs—has been attained. Auburn no longer is humiliated on the field; quite the contrary.

Wayward Boye, the Man Without a Mind, and who probably wouldn't mind if he had one, got by fairly well Saturday through couple of typographical errors and points after touchdown.

Wayward, I discover, was the only expert besides Bill Roper, who thought Tennessee would win. All the rest of us had loaded up on Alabama weeks ago. Wayward explained that as just a ruse to protect himself in case McEver, Hug and Brandt got well with a dose of whistle liniment.

Sewanee, the Mississippi Aggies, Duke, Northwestern, Texas d a few more rose up and cut him down in the open field. But he did give Florida, Yale and Notre Dame to those who were interested.

His season record now is 175 won, 34 lost, percentage .838.

And what about Vanderbilt-Alabama Saturday? Not to mention Tech-Tulane and Tennessee-North Carolina.

WILDCATS RISE.

Within the Big Ten conference, Northwestern's Wildcats, despite a patched up lineup, crushed Illinois, 32-0, and took another long step toward the conference title. Michigan again showed a deceptive attack and a rugged defense to whip Ohio State, 13-0. Indiana put up a scrappy exhibition against Minnesota but went down, 6-0, Clint Riebeth's 31-yactrum for a touchdown in the first period being the only score. Purdue easily whipped Iowa, 20-0.

In the Big Six, Jim Bausch broke away for runs of 95 and 59 yards to give Kansas a 14-0 triumph over the Kansas Argies. Nebraska nosed out Iowa State, 14-12, in a game in which the Iosers, by their fine showing, took off most of the honors.

Harvard threatened the Cadet goal repeatedly in the second and third periods but could not break through.

Cornell rolled up two touchdowns on Princeton in the first half and then had to withstand a passing attack and some fine punting by Howson, to win, 12-7. Georgia, with Jack Roberts leading the way, swamped North Carolina, 26-0, scoring 20 points in the last quarter. Washington & Lee held Kentucky even for three periods but fell apart in the final period to allow the Wildcats 19 points and a 33-14 victory. Georgia Tech found Auburn an unexpected Tartar and just won out, 14-12, by scoring touchdowns and extra points in the third and fourth periods.

tickets is a real indication. And it is.

Paul Jones, who meets Paul Harper, is confident he will be able to start his winter season here with a victory over Harper, the youngster from Texas. Harper remains sure of beating Jones.

Harper repeated his opinion that Jones wins because most of his opponents do not think. "I have noticed," says Harper, "that most of Jones' opponents help him out by forgetting their defense and rushing into the grip of his hook scissors.

JONES TRICKS THEM.

JONES TRICKS THEM.

"Jones usually acts as though he were groggy from being slammed to the floor by flying mares. This causes his eager foe to forget everything and rush in to deliver the killing hold. It is than that the foxy Jones wraps those legs around and gets that hold of his.

"I plan to be on the lookout for Jones' legs. He won't trick me into the fall if I am still able to think. I believe a man who stays out of that hold can win. I intend to stay out."

Jones is quiet, as usual. He is always a great card here because he wrestles and does not go in for the rough stuff unless he is forced into it by the tactics of another. The match Tuesday night should be one of the most hotly contested of any seen here in some time.

On the semi-windup card Taro Miyake, the Jap jiu jitsu star, will wrestle Bill Partush, young Chicago grappler, in a two-fall match.

October still has nearly a fortnight to go and yet the list of unbeaten and untied teams has dwindled to only a scattered few among the leaders. In this latter class the performances of at least four teams stood out. They were Notre Dame, Wisconsin, Northwestern and Georgia. Against such strong teams as Carnegie Tech, Pennsylvania, Illinois and North Carolina these four teams run up 106 points to six scored by their opponents.

When Notre Dame beat Carnegie Tech 21 to 6 it merely added further proof to the idea that the South Bend citadel has one of its greatest war There is an extremely good chance now that Notre Dame will not be stopped this year in spite of her smashing schedule.

It took a powerful Wisconsin team to run up 27 points against a red and blue squad considered the strongest in years. In spite of the heavy casualty list, the war is just warming up, with the main offensive still on shead

THE CAGLELESS ARMY.

THE Army has run out of Cagles, and it is also out of the cage of a one-man attack. Major Sasse and his staff put the Pop Warner ving system into action against Harvard and it was remarkable how smoothly this new machine worked in an October game. It was a well coached, aggressive, good all-around Army team that beat a good Harvard team, for Harvard had a good team even though it was minus the services of Devens and Mays, two of the best of the Crimson backs.

Yes, with these stars missing, it took a great team to beat Harvard on Saturday and it took an alert, aggressive one to hurry Barry Wood all afternoon and break up his deadly aim. The Army had four ball carriers in action in place of Cagle and Mur-

rell, and these four were given formations replete with power and deception to work with. The Army has a whale of a line from end to end and a set of first class backs. Harvard, with Mays, Devens and Talbot back will be one of the high ranking teams later on. If the Army can slip by Yale, it should go through unbeaten up to the Notre Dame party in Chicago, in which at least 200 spectators may be induced to buy tickets and come

It took southern teams four years to upset Bob Neyland's Tennessee array, but a strong Alabama team had the stuff and with McEver, a star back out for good, the Volunteer star was about to find some cloud.

Valderbilt had an easier time but this week Vanderbilt faces Alabama and then the dust will be flying. Northwestern, minus Hank Bruder, and Wisconsin must be two of the best teams the conference has had in years. With Bruder back later on even Notre Dame will have something to worry about.

Dixie Teams Need BULLDOG-TIGER No Odds--McGugin BATTLE ROUSES

Conference Elevens Are Equals of Any in Country, Vandy Coach Says.

By Dan McGugin,

NASHVILLE, Tenn., Oct. 19.—In an appraisal of football in the Southern conference over the last week-end, Alabama, Georgia, Florida, Duke. Auburn and Sewance stood out. Georgia, in her decisive victory over North Carolina, gave that unmistakable evidence which marks the great team—the ability, after rising to a crisis, to come right back the next Saturday and play a real game.

Florida and Duke added prestige to the conference by clear-cut deci-sive victories in intersectional contests. Captain Bethea of Florida showed Chicago as good a back as the Western conference can produce. Duke was astonishingly good in holding the Navy scoreless and in scoring three touchdowns on her own account.

More than one-half of the teams of the Southern conference are not only no longer set ups, but can meet leading teams from every section, asking

Auburn, though defeated by Georgia Tech only by goals after touchdowns, must have brought comfort and pride to her many faithful and loyal friends and

Supporters.

That Chet Wynne is a coach in the That Chet Wynne is a coach in the very front rank no one can now dispute. In a few short weeks he has brought astonishing progress to the Auburn squad. There has been a difference of only nine points between the total points of Auburn and those of Florida and Georgia Tech in Auburn's contests with those teams. Auburn's contests with those teams. Auburn's contests with those teams. Au-burn has not won a victory in the Southern conference in lo! these many moons, but with 11 additional points properly distributed Auburn would have won from two of the great teams

NEEDED PUNTER. NEEDED PUNTER.

Tech was without the services of a punter, both Dunlap and Graydon being unable to play. One of Auburn's touchdowns came from a run-off of 70 yards when Tech fumbled the ball in the air into the hands of an Auburn man. While credit is extended to Auburn for alertness, this incident illustrates how one of a thousand things may influence victory or defeat.

foat.

The public apparently believes that in football the best team always wins but this is by no means always true. A cleat mark on the side lines, a pass a yard too short or too long, a wild one-handed grasp of an ankle, often affect scoring at critical periods and determine the chart of the game thereafter.

Sewance came across with a victory over Mississippi, her first conference victory in a long time. Everybody feels kindly towards Sewance because of her glorious record in past years and because of the great handicap of a very limited student enrollment. Harmon, according to all rumors and reports, is not only a stabeles and reports, is not only a

had a mixed feeling of admiration and depression—admiration for the Alabama team, but feeling the shadow of this great squad upon the Commodores a few short days away.

Tennessee, after many years of success and with a record seldom equalled in American football, was without the services of her two veteran ends and a brilliant back, McEver. What the loss of these veterans meant in all the accumulated benefits of offensive and defensive organization only a coach can know.

Tennessee still had the will to score a touchdown when 18 points behind. She had in Dodd a wonderful passer. remarkable for his coolness of head and brilliant skill, though he was checked by the alertness of the Alabama defense. Rapid Rise of Auburn **Makes Coming Game** Important.

COLUMBUS, Ga., Oct. 19.—Georgia, one of the leading contenders for the 1930 Southern conference football crown, and Auburn, giving promise of being the conference giant killer, will meet in their annual classic in Memo-rial stadium, Columbus, October 25, Auburn, considered a "breather" by Auburn, considered a "breather" by most of the conference teams, established itself as a potent threat by holding the strong University of Florida Alligators to a 7-to-0 victory and Georgia Tech to a 14-to-12 triumph on successive Saturdays.

Chet Wynne, Auburn's new coach and purveyor of the Notre Dame system, established himself as a mentor to be feared by any team as he made his debut in the Southern conference

NEGRO SHOT IN HEAD

A negro, William Gaines, of 359 Houston street, was in Grady hospital Sunday night with a fractured skull, while N. A. Thacker, white man, of 771 Moreland avenue, S. E., was at liberty under \$200 bond on a disorderly conduct charge, as the result of a shooting affair that grew out of the alleged use of profane language in the presence of Thacker's wife by the negro.

Immediately after the affair, Thacker came to police station and reported the incident, saying that while changing a tire of his car on Grant street, the negro came up and began to use profane language. When he remonstrated with him the negro charged him with a knife, he said, and he shot him in the head.

IN SLAYING OF CHILD

DENVER, Col.. Oct. 19.—(P)—Detectives questioned Pearl O'Loughlin for hours today in an effort to find clues to the brutal murder of her stepdaughter, Leona O'Loughlin, 10, whose body was recovered from a city park lake last Friday. Meanwhile, toxicologists announced they had found ground glass in the viscera of the child.

Hysterical and weeping. Mrs. O'Loughlin was arrested and taken to police headquarters. A. T. Clark, of the detective force, announced she apparently was able to shed no light on the child's death.

More mystery was added by the presence of Leo O'Loughlin, the child's father, in a hospital, suffering apparent poisoning. He is a city detective. An analysis of the contents of his atomach is under way. Doctors said O'Loughlin exhibited symptoms of having eaten glass. Detective Clark said a tire iron, bearing blood and strands of the tâm-o'-shanter worn by the child when she disappeared, had been found in the O'Loughlin automobile. He expressed the belief that two wounds found on the scalp of the child, were inflicted with the tire iron before her body was flung into the lake.

and surely, The Ford Truck makes its rounds

FOR the business of quick service, where the trips are short and many, the Ford 11/2-ton truck is well suited because of its sturdy design and careful construction. The quick starts, the sudden stops of hauling through heavy traffic serve to emphasize the value of the excellent materials built into the truck.

In such businesses and in numerous others, Ford trucks meet the stern requirements of daily operation through every season with faithful, swift and economical performance.

The engine, for example, develops forty horsepower at 2200 revolutions per minute—a medium engine speed. This, by reducing the wear on moving parts, adds to the life of the truck, while the four-speed transmission increases the range of speed and power. More than twenty ball and roller bearings, at important points in the chassis, ease the strain of schedules that demand speedy and reliable transportation.

Bearings and reciprocating parts are held to close limits of accuracy by means of precision gages in the hands of expert workmen, and extra strength is contributed by the use of forty different kinds of steel in the manufacture of the truck.

Ford trucks are so designed that they can be economically adapted to a large number of businesses. It is possible to procure the Ford truck with a wide variety of bodies, in two different chassis lengths, with single or dual wheels, with open or closed cabs, and with high or low rear axle gear ratios. For light delivery purposes, there is a selection of commercial cars available on the Model A chassis. Go to your Ford dealer, and examine these units in detail.

Despite the presence of Clara Bow and thanks to that of Charles Ruggles and Skeets Gallagher, "Her Wedding Night" is a passable picture, providing, of course, that you like farce with a generous 'ressing of slap-stick. Taken from the prrlor, bedroom and both school of light comedy. "Her Wedding Night" goes about its business with a heavy hand but there are laughs mixed in with the gauche stuff. The lines, are good in spots and Gallagher and Ruggles (the latter, in our 'umble opinion, one of the best of the screen's funny men) make the most of them. Miss Bow a usual, shows not the slightest semblance of talent in any direction but the entrepreneurs wisely keep most of the show well out of her hands, being content to have her name on the posters and let her be around the place exuding a supposed sex appeal.

The stage program maintains an unusually high average. A harp ensemble, assisted by Forbes' crew, opens the festivities in a tuneful and rather pretty fashion. Enos Frazere disports himself on a trapeze with great abandon. Adolph Goebel, at the organ, plays on the emotions with a medley "UP THE RIVER" at the Fox for the week, is a full length comedy and there also is a short one to round up an all-comedy screen show except for the news reel. Fanchon and Marco's "Brunettes" idea on the stage, along with Mel Ruick and His Merry Musicians. Al Evans at the organ.

Because no member of the cast has heretofore achieved any great reputation as a comedian—and because you would not look inside bleak prison walls for a romance which fits the more acceptable patterns—the offering at the Fox theater for this week is an unusual sort of nicture.

"Up the River" is billed as a Fox Movietone laugh riot and it does not fall far short of the billing. They laugh to the right, to the left, in front of you and behind you. It—the laughter,—runs mostly in wave form, great sweeps of it and often, but there also is no little of the spotted variety—the second thought kind which breaks out sometimes down front and again way back and is invariably echoed as far away from where it starts as possible.

Claire Luce plays the principal

where it starts as possible.

Claire Luce plays the principal feminine role but Spencer Tracy is the big boy who rocks the ribs. And there is one other thing which makes "Up the River" unusual and certainly exceptionally interesting, appart from its almost wholly fun side, and that is the appearance of Joan (Cherie) Lawes, who plays in the picture as the daughter of the war of "Dear Old Bensonata" and who is, in real life.

ADJECTIVES AND LONG

Sincerity

"Somebody to see you!"

If everybody with something to interest you should come and ring your bell, what a nuisance it would be! Think of the swarming, jostling crowd, the stamping of feet on your porch and carpets!

Every day we know of many callers who come to see you. They never jangle the bell -they don't take up your whole day trying to get your attention. Instead, they do it in a way that is most considerate of your privacy and your convenience. They advertise in your morning newspaper!

In this way you have only to listen to those you know at a glance have something that interests you. They make it short, too, so you can gather quickly just what you want to know. You can receive and hear them all without noise or confusion in comparatively few minutes.

In fairness to yourself look over all The Constitution advertisements. The smallest and the largest-you never can be sure which one will tell something you really want to know.

The Negus will become His Imperial Highness Haile Selassie.

The archbishop and the bishops will pronounce a te deum in the "Geez" language, which is the ancient ecclesiastical tongue of Abyssinia.

The crowns today reposed on a high altar in the church, the six bishops praying over them for 21 days before the coronation. The precious stones and gold with which they are set were purchased in Europe and made by master goldsmiths of the country at a cost of \$1,000,000.

The king of kings will ride in state from his palace to the church in an imperial coach formerly used by Kaiser Wilhelm of Germany and purchased by Abyssinia for \$6,000. The coach will be drawn by splendid white horses imported from Hungary, driven by the former coachman of the Emperor Francis Joseph, of Austria.

BURGESS (HILDREN'S STORIES

It was just before daylight that Jimmy Skunk yawned, stretched, wondered for a moment where he was, remembered, and then crept out of Black Pussy's comfortable bed in Farmer Brown's shed. He first went over to the two dishes where the liver and milk had been the night before. He found nothing there and then walked out through the little round doorway which had been provided for Black Pussy. Once outside, Jimmy shuffled along home. He was feeling very comfortable and in good humor.

It was some time after daylight, in

comfortable and in good humor.

It was some time after daylight, in fact, it was after breakfast time, that Black Pussy ventured out from her hiding place in the barn and went to the kitchen door and begged to be admitted. She took great pains to keep away from the shed as much as possible. Once in the kitchen, she rubbed against Mother Brown and meowed, teasing for breakfast. Mother Brown went to the back shed and looked out. An empty plate and an empty saucer were there.

"You don't need anything to eat," she said. "A cat who could get away with all that liver and milk that I left out there for you last night, certainly cannot be hungry now."

hungry. Of course, there was no way for Mother Brown to know that any one else had eaten up that good meal that she had placed out in that meal that she had placed out in that shed the night before. She knew that Hound had been out in his little house, chained, lest he take it into his head to go hunting Reddy Fox. She knew that Flip the Terrier had been sut up in the kitchen all night. The liver a milk were gone, so, of course. Black Pussy must have eaten them. Finally Black Pussy gave up teasing and went out to the barn to try to catch a mouse. She wasn't at all a happy cat.

Ten Thousand Take Part in Simple Ceremonies at Washington.

WASHINGTON, Oct. 19.-(49)-Ten thousand Disciples of Christ united here today in the simple com munion observance of their faith. Three simultaneous services linked their annual international convention with a world-wide spiritual program for members of Christian churches in 30 countries.

The convention held its final business session yesterday, but virtually all who attended this meeting remained for the world conference which opened tonight with an exchange of greetings from delegates of the 30

nations.

Interdenominational unity and world-wide spiritual brotherhood—twin topics throughout last week's meetings—will be emphasized again this week, with stress also on world peace and world-wide evangelism and mission work.

The communion services, without sermon or address, consisted simply of taking bread and wine, with music and prayer to express the spiritual implications. The services, held at three different places were conducted by the Rev. Warren Grafton, Los Angeles; Dr. Frank E. Davison, Oak Park, Ill., and the Rev. Doyle Mullen. of Rensselaer, Indiana.

NASHVILLE, Tenn., Oct. 19.—

(P)—Fire today destroyed "Colemere." home of Mr. and Mrs. Dempsey Weaver and long a show place of middle Tennessee. The 22-room brick and stone house was located seven miles from Nashville and caught fire in an undetermined manner while the family was at church nearby. Members of the congregation assisted in fighting the flames. Many valuable paintings and pieces of furniture were saved, but some original articles on the first floor were burned. The home was built in 1890 by Colonel E. W. Cole and President Rutherford B. Hayes was entertained there at a reception.

Sound Bonds Buy Now for Income and Profit

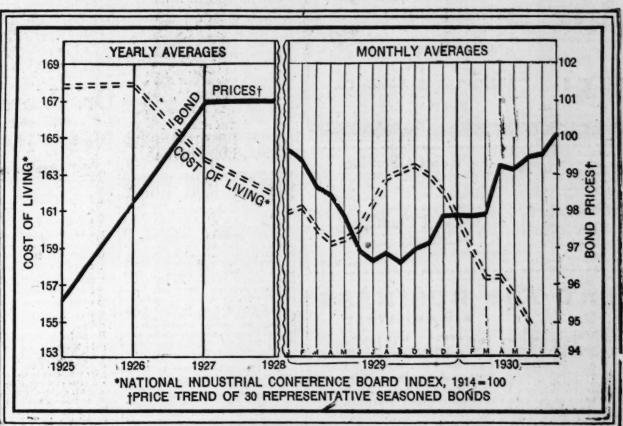

WHEN business is in the doldrums, there is always a tendency to withhold purchases. The practice is rightly condemned...by economists and by business leaders... as conducive to further aggravation of the business stagnation. Buying is urged, to produce the breeze which will again stir the becalmed ship of business and industry.

Bond buyers, however, should need no urging. A time like the present is emphatically the time to buy... because it is to the individual's own interest to do so. He stands to profit in various ways from investing in sound bonds when business is at a low ebb.

The usual increase in retail buying through the Fall ... and for the Christmas holidays... will soon be under way. Dealers' shelves are virtually empty. Hand-to-mouth buying... while it means decrease in business in a period of falling prices... also means a quick increase in buying as conditions reverse. The commodity price line is showing a tendency to stabilize.

Investors should realize that the most favorable time to buy bonds is before the turning point is reached... while commodity prices are low... and also before the bond market fully responds to the effect of low money rates. Bond prices are still low compared with the long-trend average. Outstanding values are to be found among the issues which, though sound, are less well known than the market leaders. The time to invest is now... before increasing demand pushes bond prices to higher levels, carrying with them even the attractive bargains that are yet available in the less well-known issues.

There are many factors which point to gradual strengthening in the bond market. In a year when new

Commodity prices have now reached a lower level than at any time since 1916. The resulting enhanced purchasing power of the dollar adds to the usual advantages of fixed income-bearing securities. When commodity prices are on the decline, bond income is worth progressively more in buying power. The chart also shows that, while bond prices (as represented by leading issues) are on the upgrade, they are still lower than during 1927 1928. Some types of bonds, in fact, are selling at price levels but little removed from those of 1929, the year of lowest bond prices since 1925.

financing has been so great as to tax normal absorptive capacity, the highest grade bonds (always the first to reflect improvement) have shown a steady tendency to mount to higher levels . . . demand has been strong and consistent.

Industry is doing little financing at this time. Hence there is a scarcity of industrial bonds. Municipal issues in large volume have been subscribed to promptly... indicating confidence in the future of the bond market.

Banks are buying in large volume. Reports of members of the Federal Reserve System show that holdings of securities have increased over 15½ per cent since the first of the year... contributing substantially to the demand which supports the upward tendency of bond prices. Their example is a safe one to follow.

It is always a good time to buy bonds...for safety... for income . . . the present is an especially favorable time to buy bonds for profit as well.

Building and Loan Activity Indicates Better Business

"If the condition of the Columbia Building and Loan Association can act as an indicator, so to speak, of conditions in general, business is on a decidedly upward trend," says Sidney Wellhouse, president of the association.

"For example, our association," which invests only in first mortgages on homes," Mr. Wellhouse says, "has made most substantial gain in the past six months. Our members are saving more regularly with us than ever before. Furthermore, we have opened more new accounts in the past 60 days than in any other 60-day.

Its system, based on a regular savings plan, with savings of the depositors invested in that most fundamental of all institutions, the American home, has provided a safety of investment which fully justifies one of the nation's authorities in the following statement:

"In the cataclysm of last October and November four great pillars of financial security stood stalwart and unshaken in the midst of the chaos. They were high-grade bonds and first mortgages, savings deposits, building and loan shares and life insurance. They proved a strong reliance in time of trouble. Ward Wight, well-known Atlanta realtor and chairman of the appraisal committee of the Columbia, made another interesting comment on the association. CHARLESTON, S. C., Oct. 19.—
(P)—Miss Della Rowe was arrested here late Saturday night by Charleston officers on a warrant charging her with murder. It was issued by L. B. Wheeler, justice of the peace for McIntosh county, Georgia. Miss Rowe was released on bond with the approval of the sheriff of McIntosh county.

Arrest Made in Charleston, S. C., on Warrant Charg-

ing Murder.

SAVANNAH, Ga., Oct. 19.—(P)—Della Rowe, arrested in Charleston. S. C., is the sixth woman arrested in the alleged murder of Frank Nagat to which crime Harry Allard, now in jail in Schenectady, N. Y., has confessed to committing, claiming self-defense.

Della Rowe's connection in the cas arises from a statement made by

This statement, however, put Della Rowe in the vicinity of the alleged crime and at the approximate time, and if Daisy Rowe Crisp could be given a hearing on a charge of participating in the crime in any way, then the same would apply to Della Rowe.

Griselda was silent, and so was I. Dennis continued.

"She doesn't talk to most people, but she does talk to me. She's awfully worried about the whole shing, and she thinks something ought to be done."

"She will find," I said, "that Inspector Slack shares her opinion. He is going up to Old Hall this afternoon and will probably make the life of everybody there quite unbearable in his efforts to get at the truth, Len?" asked my wife suddenly.

"It's hard to say, my dear. I can't say that at the moment I've any idea at all."

"Did you say that Inspector Slack was going to trace that telephone call—the one that took you to the Abbotts?"

"Yes."

I shook my head.
"Colonel Protheroe was not a popular man. I know that. But murder! For murder—one would need a very strong motive."

"So I should imagine," I said.
"Who could have such a motive? Have the police any idea?"

"I couldn't say."

"He might have made enemies, you know. The more I think about it, such the more I am convinced that he was the kind of man to have enemies."

"I suppose he had."

"Why, don't you remember, sir? He was telling you yesterday morning about having been threatened by that man, Archer."

"Now I come to think of it, so he id," I said. "Of course, I remember. You were quite near us at the time."

"Yes, I overheard what he was saying. Almost impossible to help it with Colonel Protheroe was not a popular man. I know that. But murder! Know that. But murder! For murder—one would need a very strong motive."

"So I should imagine," I said. "Who could have such a motive? Have the police any idea?"

"I couldn't say."

"He might have made enemies, you know. The more I think about it, wow. The more I think about it, wow. The more I think about it.

"I suppose he had."

"I sand. "Grothero—one would need a very strong motive."

"Yes, I svendd nee! 'For murder—one would need a very strong motive."

"So I should imag might have justice meted out to him

might have justice meted out to him instead of mercy."

"Did I say that?" I asked frowning. My remembrance of my own words was slightly different.

"You said it very impressively, sir. I was struck by your words. Justice is a terrible thing. And to think the poor man was struck down there."

poor man was struck down after-wards. It's almost as though you had a premonition."
"I had nothing of the sort," I said

"I had nothing of the sort," I said shortly. I rather dislike Hawes' tendency to mysticism. There is a touch of the visionary about him.
"Have you told the police about this man, Archer, Sir?"
"I know nothing about him."
"I mean, have you repeated to them what Colonel Protheroe said—about Archer having threatened him."
"No." I said slowly. "I have not."
"But you are going to do so?"
I was silent. I dislike hounding a man down who has already got the forces of law and order against him. I held no brief for Archer. He is an inveterate poacher—one of those cheerful ne'er-do-wells that are to be found in any parish. Whatever he may old Protheroe?"

"If he doesn't," I said, "it will not be for the want of trying."

Mary appeared and said:

"Mr. Hawes wants to see you. I've put him in the drawing room, and here's a note. Waiting for an answer. Verbal will do."

NEW YORK, Oct. 19.—(P)—
Frank H. Anderson, president of American Department Stores Corporation, announced that present inventories of the company are 50 per cent less than a year ago. He said net profits for the six months ended August 1 were ten times greater than the actual operations in the stores a year ago. "This net profit," he added, "was realized in spite of the very sharp decline in

spite of the very sharp decline in commodity prices, and was only possible because of a rigid control over expenditures."

From July 1 to September 30 the government income from all tax sources was \$708,363,707 as compared with \$770,835,21? in the first three months of the last fiscal year.

The major part of the decrease occurred last month when the tax collections dropped \$48,847,552 from \$503,983,224 for September, 1929.

Only six of the 36 classes of taxes showed increases and they were minor items. Income taxes registered the greatest drop, being \$55,740,192 less than collections in the first three months last year.

for the week was a decline of 12 points.

Trading was interrupted early in the week by the Columbus Day holiday but when business was resumed Tuesday a fairly good undertone was developed with more disposition on the part of the trade to buy and with some buying of contracts by the mills. On Wednesday prices improved owing to a rather bullish report on domestic mill consumption during September. The tendency to advance was helped by a bullish construction of the weekly weather and crop summary which said that picking and ginning had been delayed by unfavorable weather in many sections.

The market ruled easier during the second half of the week owing mainly to weakness in the stock market and in most of the commodity markets. Hedge selling also contributed to the easier tone particularly as there was little speculative demand to absorb the hedges. As a result of these influences the market lost all of the early gain and a little more besides, the final close being at the lowest of

the final close being at the lowest of the week.

The spot markets were not quite so active during the past week, the demand being moderate from domestic mills but fairly good for export. Traders reported the basis slightly easier on staple cotton due mainly to free offerings of Egyptian cotton.

According to Secretary Hester's figures the movement of the crop to market showed a considerable falling off the past week which has served to confirm the impression that the peak of the movement has passed. Mill takings for the week improved over the preceding week.

The following shows the high, low

poration taxes and \$251,050,206 individual.

The six classes that showed increases included taxes on rectifiers, retail and wholesale liquor dealers, manufacturers of stills, etc., case stamps for distilled spirits bottled in bond and brewers, retail and wholesale dealers in malt liquors. The increases in these divisions totaled only \$274.

The tobacco tax was the only general subdivision that showed an increase and this was due to a jump in the manufacture of cigarets and cigaret papers. Cigarets paid \$97.-881,500 for the first quarter compared with \$96,020,214 last year, while cigaret papers paid \$413,373 this quarter as against \$376,096 a year ago. The total tobacco tax, however, was only \$9,450 more in the first quarter of this year due to decreases in large and small cigars, large cigarets, snuff and chewing and smoking to-bacco.

Taxes on bonds of indebtedness, capital stock issues, etc., and on capital stock sales or transfers, which had increased during the stock market boom, dropped off \$1,350,770 and \$5,314,147, respectively. The playing card tax declined from \$954,584 in the first three months of the last fiscal year to \$827,701.

Miscellaneous taxes dropped from \$3,330,402 for the first quarter of the last year to \$8,350,138 for the same period this year.

The greater part of the decrease in tax collections was due to the drop in income taxes collected last month as compared to those received in September last year. The collections this September were \$497,287,40 as tember last year. The collections this September were \$497.288.740 as

compared to \$542,065,837 last year. Among the major tax items only those on the transfer of estates of decedents showed an increase, advancing from \$9,549,128 in the first three months last year to \$13,318,330 this year BETTER FARM TRAINING

Marathon Dancers Quit When Money Is Tied Up

CHICAGO, Oct. 19.—(P)—This was the one thing these marathon endurance dancers—they had been going since August 31—would not endure.

condurance dancers—they had been going since August 31—would not endure.

Nine of them were left, stumbling groggilv about the floor of a north side ballroom last night. Their perseverance had been unduly taxed but thoughts of the \$2,700 in cash awards for the three surviving couples kept them on their blistered and bunioned feet.

They had just entered the one-thousandth, one hundred and sixtieth hour when a detective took the center of the floor to make an announcement. One of the promoters, he said, had left and the gross receipts of the enterprise had been tied up in a court action.

This was the one thing the marsthon endurance dancers would not endure. They quit—just 1.671 hours short of what they claimed to be some sort of a record.

MANY ISSUES CONFUSE MANCHURIANS REPLY TO SOVIET CHARGE

NEW YORK, Oct. 19 .- (UP)-The campaign for the governorship of New York important nationally because of its potential effects on the nominating conventions of 1932, has produced a confusion of issues not likely to be untangled in the two weeks of life left to it.

Governor Franklin D. Roosevelt, democrat, and Charles H. Tuttle, republican, are discussing different is sues, to the apparent embarrassment of voters who like to use their ballots as the answer to a single question.

Tuttle, for instance, has adopted as his principal weapon of attack the scandals besetting the Tammany Hall administration in New York city. With charges piling up that places on the judiciary have been purchased.

Governor Roosevelt has said little on this issue. Although in private conversations and public addresses helid democratic plurality which the five boroughs of this city may be expected to give him.

New York Will Sell 75 Million City Bonds NEW YORK, Oct. 19.—(49)—One of the largest items of municipal financing scheduled for this week will be the sale of \$75,000,000 4 per cent corporate stock by the city of New York. This award will be made Tuesday. Other state and

municipal issues coming out this week will be comparatively small, and the total amount is ifgured at about \$103,000,000, compared with about \$15,000,000 last week.

COTTON GOODS SALES SHOW IMPROVEMENT

NEW YORK, Oct. 19.—Heavy sales of print cloths during the last 48 hours carried this week's sales above the total of the last two weeks and to a point about 25 per cent in excess of actual production.

This heavy print cloth buying, which was again centered around the 80-80s, was coincident with the announcement by the large corporation printers of a further advance of 1-4c to 1-2c per yard for percales. The print cloth sales were mostly for November-December delivery though the 80-80s were in good demand for January and we have heard of sales being made of some of the other constructions for January-February.

Outside of the print cloths, there

Outside of the print cloths, there has not been much to attract attention. There has been continued good inquiry for towels, but colored goods have been quiet. Further improvehave been quiet. Further improvement in the situation on sheetings and drills, which is badly needed, can only be brought about by continued curtailment. The process of correcting the stock situation has not gone ahead as rapidly in the sheetings and drills as it has in the print cloths, and it is extremely desirable that sheetings and drill production should be kept well in hand for the balance of the year.

It seems to us that there is a grad-

It seems to us that there is a grad-ual return of confidence under way both as regards the stock market situation and the commodity markets. Whether cotton has already sold at the lowest price of the season, or not, it is generally recognized that there is little likelihood of further decline sufficient to affect the goods market. Such being the case, the trend of prices is likely to be moderately up-ward as long as production is kept within proper limits.

NEW YORK, Oct. 19.—Deliverles to consumers by General Motors dealers in September totaled 75,805 cars, compared with 86,426 in August and 124,723 in September last year. Alfred P. CURB LOSES GROUND IN ERRATIC SELLING

BY JOHN L. COOLEY. Associated Press Financial Writer. NEW YORK, Oct. 19 .- (P)-The curb market has gone through another interval of erratic price movements, with the dominant trend downward. Trading was quiet at midweek, but as usual increased in volume on the as usual increased in volume on the break. Utilities, oils and investment trusts sold in steady streams and most of the active issues went to new lows. Electric Bond & Share, for example, dropped to within a fraction of last November minimum of 50 and United Light "A" sold around its low for the year. Dixie Gas had the distinction of making a 1930 high. Liquidation of the oils went forward with little pause. Selling was based on the poor price situation. based on the poor price situation, which led many holders to dispose of their securities at levels in some instances considerably below previous minimums. Humble, Gulf and Vac-

The Prince & Whitely Trading Corporation shares rallied in response to the reorganization of the directorate, but slumped again toward the weekend. Ungerleider Financial had a smart upturn on the announcement that the book value was \$48 a share. United Founders and Goldman Sachs Trading were in almost steady supply.

Newmont Mining found levels that correspond more closely with other copper shares. High-priced specialties made their usual wide swings.

MACON TELEGRAPH PUBLISHING COMPANY

FIRST (CLOSED) MORTGAGE 61% SINKING FUND GOLD BONDS

Coupon bonds in denomination of \$1,000, registerable as to principal only. Principal and semi-annual interest (April and October 1) payable at the office of the Company, Macon. Georgia, or at any office of The Utilizens and Southern National Bank in the State of Georgia. Redeemable as a whole or in part not less than \$10,000, principal amount, at the option of the Company on any interest date upon thirty days' notice

THE CITIZENS AND SOUTHERN NATIONAL BANK, TRUSTEE

HISTORY: Macon Telegraph Publishing Company, a Georgia Corporation, located in Macon, Georgia, owns and operates "The Macon Telegraph," a daily morning newspaper with a Sunday edition, and controls and operates "The Macon News," a daily afternoon newspaper. The Macon Telegraph was established in November, 1826, and under various names was published as a weekly paper until January 10, 1860, when it became the present daily "Telegraph." The Macon News was established in 1884 as a daily afternoon paper. The Telegraph has a record of 104 years' devotion to the public interest, and is regarded as one of the leading and influential papers of the South. Circulation of the "Telegraph" has shown a consistent increase and is at present in excess of 34,000 copies per day. The "News" circulation is approximately 15,000 copies daily.

TERRITORY: Macon is situated in the geographical center of the State of Georgia, in the heart of the richest agricultural section of the South. Macon's per capita wealth is five times greater than the average for the United States. Transportation is furnished by 11 railroad lines and 3 National highways. Its rich trading area includes Barnesville, Cochran, Cordele, Dublin, Eatonton, Eastman, Fitzgerald, Forsyth, Fort Valley, Gordon, Hawkinsville, Milledgeville, Monticello, and Thomaston.

PROPERTY: These bonds are a direct first closed mortgage on all of the property of the Macon Telegraph Publishing Company, consisting of a two-story brick building situated in the heart of the business section of Macon, Georgia, on a lot 34 feet 3 inches wide facing Cherry Street, with a depth of 210 feet to an alley, all machinery and equipment, name, circulation, Associated Press morning franchise, good will, etc. The Macon News Printing Company, publishers of the "Macon News," has made a twenty-five year lease to the "Telegraph" covering the evening paper, including the Associated Press Franchise, and this lease together with the entire capital stock of the Macon News will be pledged with the Trustee. Insurance policies aggregating \$100,000 on the lives of the President and Vice-President will be pledged with the Trustee for the benefit of the Bondholders. Based on a recent appraisal by S. P. Weston, Inc., newspaper engineers of New York, together with other information obtained, the property covered by this mortgage has an estimated value in excess of \$1,250,000.00, or more than 3 times this issue of bonds.

EARNINGS: Average annual net earnings for the five and one-half years ended June 30, 1930, before interest and Federal Taxes, and adjusted to give effect to non-recurring charges and certain economies to be obtained in the joint operation, and publication of the two papers, amounts to approximately \$86,000.00. This average is 5.3 times the average annual interest requirements of this issue, and over twice the average annual interest and sinking fund requirements.

SINKING FUND: The Deed of Trust requires equal monthly deposits with the Trustee for interest next due, and beginning October 10, 1931, an additional sum of \$2,084.00 monthly for retirement of bonds. In addition, it is agreed that, after deducting the monthly deposits for interest and principal Sinking Fund, 33 1-3% of the net earnings for each calendar year beginning with the year 1931 shall be deposited with the Trustee for redemption of bonds. The Sinking Fund may purchase bonds in the open market at or below the call price.

PURPOSE OF ISSUE: Proceeds derived from the sale of these bonds will be used to retire the bonded indebtedness of The Macon Telegraph Publishing Company, to pay debts of the Macon News Printing Company, and for other corporate purposes.

MANAGEMENT: The editorial and news policies of the two newspapers will be independent, but the operations and publication will be in the hands of Messrs. W. T. and P. T. Anderson and associates.

LEGALITY: All legal matters in connection with this issue will be passed upon and approved by Messrs. Adams, Adams and Douglas, of Savannah, Georgia, for the Bankers, and Messrs. Park and Strozier, of Macon, Georgia, for the Publishing

BOND LIST REGAINS MAJORITY OF LOSSES

BY DONALD C. BOLLES, sociated Press Financial Writer. NEW YORK, Oct. 19 .- (P)-The bond market regained its equilibrium last week. Resumption of the upward trend after more than a fortnight of unsettlement climaxed by ne of the most drastic declines of the year originated in the rally of Latin American issues starting Tuesday and continuing steadily through the short week. Brazilian, Chilean, Argentine, Peruvian, Colombian and Uruguayan municipal and bank bonds, which had lost 5 to 25 points, recovered a good portion of the loss.

This sharp recovery, which in turn imparted a better tone to the entire foreign list, was attributed not so much to any marked improvement in political and economic conditions here as to a feeling that the reaction had been carried too far. The result was that the list found support from bargain hunters attracted by the greatly increased yields afforded by the lower prices, and speculators who saw an opportunity for a quick profit.

The improvement in the domestic group was more gradual and accompanied by considerable irregularity. Prices of bonds were a little higher at the end of the week as a result of cautious buying, and the averages showed an upturn for the first time in a fortnight.

The movement of domestics, how-The inovement of domestics, however, was distinguished more by the drying up of liquidation than a renewal of large buying, accumulation lacked the vigor which characterized the rise of bonds to within a small fraction of the high level of 1928. This was particularly apparent in the railroad group where an irregular movement continued through most of the week. Progress for the most puri the week. Progress for the most part was limited to small fractions. Declin-

was limited to small fractions. Declining earning statements have been responsible for the lack of buying interest in many railroad bonds.

Selling has been evident in issues that may be dropped from the New York State Savings bank list. Under the law, to qualify as legal investments railroad mortgage bonds must be obligations of companies that in each year for at least five of the last six and in the fiscal year earned an each year for at least five of the last six and in the fiscal year earned an amount available for fixed charges of not less than 11-2 times the fixed charges. The list is revised each year. Utilities have been fairly steady. Industrials continue to reflect economic conditions. The decline in stock market liquidation resulted in tightening of pressure against each six of the contraction of t

tightening of pressure against convertible and warrant issues. Few new lows for the year were established during the week.

Despite the shortened week, the vol-

ume of new financing increased. It totaled \$127,298,000 compared with \$119,739,000 in the previous week, and included a \$50,000,000 treasury bill issue.

Bottom of Market Near. N. A.)—Some of the most important people in the financial district are looking for a rally to begin in the stock market this week. They believe that further liquidation tomorrow will appear, but that the market is again oversold, and that prices of the good seasoned issues are at or near bottom and should be picked up for a substantial recovery. With many stocks selling at levels which are the lowest witnessed in two years, these people believe that the worst has been discounted. Whatever additional selling appears is expected to reflect the end of liquidation for a time.

Bulwark Smashed.

Throughout the decline last month American Can stock has been one of the bulwarks of the market. Its resistance to pressure has from day to day created hopes that its action in dicated support by important people, which would ultimately take the general list out of its depression. It was therefore a source of much discouragement Saturday when that issue broke sharply. This weakness was disheartening and caused disgusted selling in other directions.

A letter from Mr. Charles R. Hook, President of the Company, to which reference is hereby

made, and of which copies will be furnished upon request, is summarized by him as follows:

Earnings Consolidated net income of the Company and its sub-sidiaries (not including Sheffield Steel Corporation which was acquired in 1930), after depreciation and deplation but before interest and Federal income tax, for the two years ended December 31, 1928 and 1929 the first two years in which earnings of the Columbia Steel Co. and Norton Iron Works were included), as certified to by Messrs. Haskins & Sells, amounted to \$6,185,097 and \$8,307,239, respectively, or more than 2.8 times and 3.8 times the annual interest requirements on the total funded debt to be outstanding

To mature November 1, 1933

upon completion of this financing. For the six months ended June 30, 1930, such net income (including earnings of Sheffield Steel Corporation), as reported by the Company, amounted to

\$2,760,504 or at the rate of more than 21/2 times such interest requirements. The unsatisfactory industrial situation now prevailing will undoubtedly be further reflected in the current earnings of the Company, but there has recently been a substantial increase in the volume of bookings which, it is hoped, marks a definite improvement in

the demand for the Company's products.

Equity Dividends on the Company's common stock are being paid at the rate of \$2 per share in cash and 5% in common stock per annum. The outstanding preferred and common stocks at present quoted prices have an indicated market value of more than \$60,000,000.

Sabor, the lioness, lay stretched in the African sunshine. Proud and happy she watched the playful antics of her only son. Her yellow eyes were half closed. Yet Sabor was more alert than usual. Numa, the lion, was away. No harm must come to this little spotted, fuzzy ball. Kills had not been plentiful. Cold rains had come. Only this one of her three cubs had been strong enough to survive. Sabor's whole savage heart was concerned for his safety.

had been gone two nights now. Sabor thought, as she half dozed, of Wappi, the plump antelope. Perhaps even now her splendid mate might be dragging Wappi or Pacco, whose flesh was the finest in all the tangled jungle . . . Sabor's mouth watered. Ah! . . . what was that? The shadow of a sound came to her keen ears. Her nose sniffed the air. Whatever it was, the faint movement was approaching her. FINANCIAL

Alarmed also, the little cub stood at Sabor's side. He looked in the direction his mother was looking, cocking his head first on one side and then on the other. There was a disturbing quality in the sound Sabor heard. She glanced at her cub. Always present was the fear that some danger menaced him. The breeze now brought to her nostrils the scent-spoor of the thing that moved toward her through the jungle.

By Edgar Rice Burroughs

at its end she saw the object of her fear and by a single thought—to kill!

a bare-fanged, glittering-eyed mask of savage rage. The scent that had come up to her was the hated man-scent! Sabor cautioned the cub to lie down and remain until she returned. Then she moved rapidly and silently, to meet the intruder. Through the dense jungle the lions had worn a tunnel-like path to their lair. As Sabor reached the clearing hatred. From the gentle mother she became a ter-rifying creature of destruction, her brain obsessed

Whitehall, S. W., Tuesday night, according to an announcement by Charles F. Baker, chairman of the committee on arrangements. The three lodges are: Central lodge No. 28, which will celebrate its eighty-second anniversary; Capitol lodge No. 60, its sixtieth anniversary, and Schiller lodge No. 71, its fifty-eighth anniversary. T. H. Robertson, of Gainesville, grand secretary, will present 25-year-veteran jewels.

Major General Frank R. McCoy, commander of the fourth corps area, with headquarters at Fort McPherson, will meet adjutant generals from eight southeastern states in a conference at the fort Tuesday to select camp sites for the 1931 summer maneuvers of national guard units.

Eugene R. Black. governor of the federal reserve bank, and A. H. Armstrong, of 633 Techwood drive, are members of the National. Council of the Y. M. C. A., which opens its sixth annual session in Chicago this morning. Neither will be able to attend, however, to the press of other engagements.

C. P. Shannon, Jr., of 1095 North avenue, N. E., was found in an unconscious condition early Sunday morning on Highland avenue by newspapermen, according to a police report. Shannon had driven his car into a machine parked at the curb, it was stated, and was injured about the mouth. After treatment at Grady hospital he was allowed to return home.

A. J. Wheeles and his small son, of 159 Whitefoord avenue, were slightly injured Sunday night when the car in which they were riding collided with another machine driven by Mrs. F. A. Risse, of 763 Pulliam street. The accident occurred at Edgewood avenue and Courtland street. No case avenue and Courtland street. No case was made, according to police records, of the affair. Bishop Says Senators Abuse Franking Privilege in War on Him.

WASHINGTON, Oct. 19.—(UP)—Bishop James Cannon, Jr., of the Methodist church, south, said in a printed pamphlet issued today that his stock market correspondence, made a public record by being inserted in the Congressional Record, is being circulated generally without postage charge under the franks of United States senators.

States senators.

The correspondence in question, that between the bishop and Kable & Co., he explained, was part of that brought before the Methodist conference in Texas last May, when the hypedy compittee on envisconary reference in Texas last May, when the church's committee on episcopacy refused to reopen the case against him. The statement, Cannon said, is made now because "I have learned that the country has been flooded with copies of this correspondence under the frank of senators without the payment of any postal charge, and it seems proper to give at least this statement in reply to this widely disseminated correspondence circulated postage free."

The pamphlet also contained a number of alleged reports on surveillance of R. M. Cannon, of Los Angeles, son of the bishop, allegedly made to W. R. Hearst, the newspaper publisher. Hearst was the defendant in a \$5,000,000 damage suit which Cannon brought here last week, charging libel.

ville, Fla., to make a talk in Elmira, N. Y., before an aviation and glider gathering to which the Floridians were invited but unable to attend. W. F. Barnwell, Jacksonville glider school instructor, and H. L. Mallison, glider enthusiast, had received telegrams from Reed Chambers, of the National Aviation Underwriters' Association, urging their presence at the meeting, where the men were scheduled to make short talks.

With the co-operation of radio station WJAX the two men conducted a dialogue that was recorded on a speakaphone cylinder, which then was addressed to Mr. Chambers and forwarded by air mail. Pilot Frank Andre, of the Mismi-Atlanta-New York route of Eastern Air Transport. Inc., took off for Atlanta with the recording and other air mail. The following morning the two Floridians, still in their own city of Jacksonville, spoke before the meeting in Elmira, more than 1,200 miles away. Worth at 9:30 o'clock each morning and arrive at Candler field at 4:25 that afternoon, the change having been made so that the daily flights may be completed before nightfall.

Air-minded Atlanta physicians and surgeons, members of the Pan-American Medical Association, are planning to charter two airplanes for a trip in December to Havana, Cuba, where the Georgia chapter of the association will meet in conjunction with a gathering of Seaboard Air Line surgeons. The local medical men probably will give clinics in Santiago, Cuba, as well as Havana, and are expected to visit other Latin-American countries before returning home.

Better general business conditionswhich are here, the economists in-sist—are reflected in the increased patronage which the Atlanta public is giving operators at Candler field. Sunday, both the Blevins Aircraft Cor-

ping companies at the airport, reported the biggest day's business in months. Coming at a time when aviation patronage is supposed to begin dropping off due to impending cold weather, it is a most encouraging indication.

The airport having settled down to its customary and every-day activity after rather a hectic week of comings and goings, aviation operators are anticipating a great enhancement in aviation interest here through the inauguration of the city's first transcontinental airmail and passenger line. Crowds which arose early Wednesday morning to see the first planes depart and which drifted out morning and night during several days thereafter to watch the big trimotors take-off and land augur well for the industry's future here, they maintain. planes depart and which drifted out morning and night during several days morning and night during several days thereafter to watch the big trimotors take-off and land augur well for the industry's future here, they maintain.

0 The new Southern Air Fast Express line to the coast is making as rapid progress as its founders anticipated, Lee Sanders, division manager of Gulf Coast Airways, Inc., local aviation corporation subsidiary, declared Sunday. With the novelty worn off and souvenir-hunters and philatelists satisfied, the line has settled down to every-day operation, carrying out and bringing in mail cargoes averaging 200 pounds each, Sanders averaging 200 pounds each, Sanders stated. Saturday morning four passengers were carried in the big Fokker to the first-day terminus at Fort Worth, and Saturday night two passengers from that point were brought to Atlanta

Joe Stewart, of Clarkesville, Curtiss-Wright solo student, Sunday successfully passed his tests for a private pilot's license in one of the company's Fledglings. Stewart, who has approximately 20 solo hours to his credit, will remain in Atlanta to build up his time and hopes to be eligible for a limited commercial rating ere long.

Radio equipment valued at \$60,000 has been received here and will be installed by Thursday or Friday, it was stated. With the final equipping of planes with receiving sets, this work to be done at Dallas, the ground-to-plane weather reporting system will be complete and in full operation. A change in the S. A. F. E. schedule which went into effect Friday brings the afternoon plane to Atlanta approximately two hours earlier. On the new basis planes will leave Fort An active advocate of aviation, though his official duties leave him little time to leave the ground, E. K. Large, Atlanta postmaster, was one of the most interested and enthusiastic members of the party of officials which aided in the inauguration of the new line. The flight to Fort Worth, by its very dissimilitude, recalled to the postmaster an airplane trip he took four years ago, under similar auspices, but vastly different conditions.

The regular monthly conclave of Atlanta Cambridge and Property of Atlanta Cambridge and Property of the Property of the Order of Red Cross will be conferred. All qualified Sir Knights are cordially invited to meet with us. It was back in 1926, Mr. Large reminisced, when the Florida Airways was organized to run from Atlanta to Jacksonville. The postmaster was anxious to boost the project and so decided to take the inaugural flight—with Chief Pilot Carl Ben Eileson in a nice new Jenny. The first landing was scheduled to take place on Macon's new air field—but a landing was not made that day or for a number of days thereafter. The Fellowcraft Club of Capital City Lodge, No. 642, F. & A. M., will hold its regular meeting at the lodge room, 423% Marletta St., this (Monday) avening, October 20, 1980, at 7:30 present.

00 Bibb county, it seems, had donated the plot of ground for the airport and had done all of the development work, only to discover to its chagrin that the city was "hogging" all of the cred it for the endeavor. So, bright and early on the morning of the initial flight, the county commissioners hired themselves a tractor and a driver and themselves a tractor and a driver and proceeded to plow the surface of the would-be landing field into deep furrows. Unable to land for the prearranged reception program, Mr. Large was forced to heave Macon's mail sack overboard, aiming for the tractor-driver—still busily at work—but missing him by a city block.

New officers and directors of the Aero Club of Atlanta will be nominated at a special meeting of the directors of the group at 3 o'clock this afternoon in Room 207 of the Chamber of Commerce building, it was announced Saturday. Names of the officials nominated will be presented for ratification to the membership at the annual meeting to be held the following week. Secretary William A. Dunlap asked that a full attendance be on hand.
